

It's never too late to join us!

March was chalk-full of events here at Unified Technologies, we've wrapped up three in the past week alone. From trainings and luncheons to conferences and company events, we are dedicated to improving user experience, educating our clients, and celebrating what makes Unified Technologies a unique voice, video, collaboration, and infrastructure provider.

If you weren't able to join us in March, don't fret! We host events nearly every month, and April is no exception. Check out the upcoming events below to see what is happening in April, then make sure to register!

Shouldn't You Be Our Next Partner?

When clients visit our offices in Louisville and Lexington, they see partner logos on our conference room walls. One thing you should know about Unified Technologies is that we love to promote our partners. Our CEO Scott Diamond, [recently talked about this](#) in an article in Louisville's Business First.

Our partnership with each business is unique, still the common factor is the passion for meeting needs and fixing problems for those we work with. As best we can, we try and promote our [partners via blog spotlights](#), social media posts and through initiatives like [free use of our new training facility](#)
